3 authors	2 each	1 – 2	1 - 2	
6 authors		1 each		
11 authors		0 each		

SSCI, *Social Sciences Citation Index* of Thomson ISI (Institute for Scientific Information)..

^aWholly or partly from journals covered in *Science Citation Index*.

These data are those of the authors of two articles in the “Talk of the Town” page of the Philippine Daily Inquirer. The two groups of authors have opposing views on the Reproductive Health bill. One is [Population, poverty, politics and RH bill](#) (Inquirer, 29 July 2012) by [30 University of the Philippines economists](#). The other is [No need for an RH bill, now or ever](#) (Inquirer, 16 September 2012) by Bernardo Villegas, Evelina Atienza, Frank Padilla, Anthony Lumicao, and 15 others (only one of the 19 authors is published, **BM Villegas**).
